

Zhono Chips Verified Compatible with New HP Firmware Upgrade for W2180 Series Printers

Dear Valued Customers,

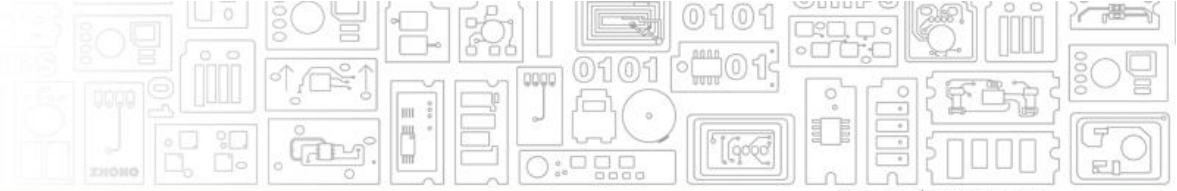

HP released a new firmware (version: 6.28.1.47-202603112313) on April 1, 2026.

After thorough testing, our engineers verified that Zhono compatible chips for W2180 will continue to **operate normally** with this OEM firmware upgrade.

Zhono Firmware Upgrade Record for HP W2180 Series Printers			
Cartridge Code	Upgraded Firmware Version	Firmware Push Method	Zhono Chips Tested after Firmware Upgraded
W2180/81/82/83A	6.28.1.47-202603112313	Wi-Fi	Chips with etched image 007V2/008V2 remain unaffected
W2180/81/82/83X			
W2190/91/92/93A			
W2190/91/92/93X			
W2220/21/22/23A			
W2220/21/22/2X			

Important Notes and Suggested Solutions

1. Zhono Compatible HP W2180 chips Chips with etching **prior to 007V2/008V2** may not operate correctly with the latest firmware. Please contact your sales representative for guidance.
2. To avoid potential compatibility issues, we recommend disabling automatic printer firmware updates, and refraining from installing manual updates.
3. If you experience any chip-related malfunctions, please contact your sales representative.
4. Zhono will continue to closely monitor OEM firmware upgrades to deliver secure and reliable chip solutions for our customers. If you have any questions regarding printer firmware, please contact your sales representative.

Thank you for your support.

Sincerely yours,

April 1, 2026

Zhono
